BOSE®

Better sound
in the palm of your hand

Introducing the

NEW SoundLink™ Mini

Bluetooth® Speaker

It delivers full, natural sound from an ultra-compact speaker that fits in the palm of your hand. It connects wirelessly to your smartphone, tablet or other Bluetooth device, so you can listen to your music, videos or games anytime, anywhere.

Just grab it and go.

Plays where you play

The SoundLink™ Mini Speaker is small and light enough to tuck into your bag. It weighs in at just 0.67 kgs. Its low profile lets you place it almost anywhere and provides a low centre of gravity that makes it nearly impossible to tip over.

The rechargeable lithium-ion battery delivers up to seven hours of playtime. And at home, you can listen even longer—the charging cradle lets you listen while it charges. An empty battery usually fully recharges in three hours.

Bluetooth® connectivity

The speaker has a range of about 30 feet, so you can enjoy the sound you want without wires. It pairs easily with your smartphone, iPad® or other Bluetooth device. And it remembers the most recent six devices you've used, so reconnecting is even simpler.

Big performance, small size

You might not expect sound this rich from a speaker this small, but the SoundLink™ Mini Speaker is something new. You don't have to sacrifice performance for portability. Proprietary technologies and an innovative driver configuration combine to deliver full-range sound—including deep lows—in an ultra-compact package. It lets you take your music to places it's never been before

Easy operation, elegant design

The SoundLink™ Mini speaker is designed for sleek simplicity. Its single-piece aluminum casing is both attractive and durable. The speaker features power and volume buttons—you control all other functions from your Bluetooth device.

Key Features

- **Charging cradle**
  recharges the battery and serves as a convenient home base for your speaker, and it lets you play while it charges
- **Wall charger**
  can be plugged into the cradle or directly into the speaker
- **Auxiliary port**
  lets you connect other audio sources, like an MP3 player
- **USB port**
  allows for software update to ensure ongoing Bluetooth device compatibility
- **Soft covers**
  are available separately in blue, green or orange to match your style.

Accessories

Soft Cover

Additional cover allows you to customize the appearance of your SoundLink™ Mini Speaker while providing added protection for the aluminum body from scratches or abrasions.

Travel Bag

The travel bag serves as a protective case for both the SoundLink™ Mini Speaker and its wall charger. It keeps them together so you have everything you need to enjoy your SoundLink™ Mini speaker on the road.

Car Charger

The Car Charger uses a 12V power outlet commonly found in vehicles.

Wall Charger

The additional wall charger gives you the freedom to keep your SoundLink™ Mini Speaker charged while traveling. It can provide power to the speaker itself, allowing you to keep your charging cradle set up at home.

Pair and Play

Pair and play the speaker with your *Bluetooth*® device. It's simple—and you only need to do it once. Just press and hold the *Bluetooth*® button on the top panel, then choose the choose the the SoundLink Mini *Bluetooth*® Speaker from your smartphone or other source. It's now memorized, ready to play in an instant. Nothing to connect or dock.
